

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Jurczkowski  
DOCKET NO.: 07-27674.001-R-1  
PARCEL NO.: 13-06-306-010-0000

The parties of record before the Property Tax Appeal Board are Robert Jurczkowski, the appellant, by attorney Thomas J. Thorson in Oak Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$11,591  
**IMPR.:** \$46,254  
**TOTAL:** \$57,875

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 138 year old, 1,896 square foot, two-story, single-family dwelling of frame construction. Features of the home include a partial unfinished basement, a fireplace and a two-car garage. The dwelling is situated on a 9,937 square foot lot.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted information on four suggested comparable properties. They consist of two-story single-family dwellings located on the subject property's street. The comparables are constructed of stucco, frame and masonry, and frame. They range in age from 56 to 113 years old and range in size from 2,004 to 2,430 square feet of living area. Features include a one-and-a-half, two, or two-and-a-half car garage, one or two fireplaces and a full unfinished basement. The comparables have improvement assessments that range from \$29,847 to \$45,740 or \$14.46 to \$22.82 per square foot of living area. The subject's improvement assessment is \$46,254 or \$24.40 per square foot of living area. Based on this

evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$57,845 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties located within the subject's neighborhood with three of the comparables located within one-quarter of a mile. The comparables consist of two-story, frame single-family dwellings that range in age from 111 to 138 years old and range in size from 1,760 to 1,862 square feet of living area. These properties have improvement assessments that range from \$48,927 to \$50,393 or \$26.28 to \$28.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the appellant's comparable #4 and board of review's comparables #1, #2 and #3 were most similar to the subject in size, style, location and exterior construction. These comparables are all constructed of frame and located within a quarter mile of the subject property. These comparables have improvement assessments that ranged from \$45,740 to \$50,393 or \$22.82 to \$28.38 per square foot of living area. The subject's improvement assessment of \$24.40 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing

evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
