

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brent Kim
DOCKET NO.: 07-27893.001-R-1
PARCEL NO.: 04-20-112-016-0000

The parties of record before the Property Tax Appeal Board are Brent Kim, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,043
IMPR.: \$74,294
TOTAL: \$86,337

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3,138 square feet of living area. The dwelling is 10 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 3-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on twelve comparable properties located in "neighborhood 210" and described as two-story frame or masonry dwellings that are 10 years old. The comparable dwellings range in size from 3,110 to 3,309 square feet of living area. Each comparable has central air conditioning, a fireplace and a 3-car garage. Eleven comparables have partial unfinished basements and one comparable has a full unfinished basement. The comparables have improvement assessments ranging from \$20.95 to \$22.59 per square foot of living area. The subject's improvement assessment is \$23.68 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$86,337 was disclosed. The board of review presented descriptions and assessment information on four comparable properties located in the same neighborhood code as the subject. Comparable #4 was located on the "same block" as the subject. The comparables consist of two-story frame dwellings that are 10 years old. The dwellings range in size from 3,070 to 3,135 square feet of living area. Each comparable has central air conditioning, a fireplace and a 2-car or 3-car garage. Three comparables have partial unfinished basements and one comparable has a full unfinished basement. These properties have improvement assessments ranging from \$23.62 to \$23.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by both parties similar to the subject in location, design, size, age and features. The comparables had improvement assessments that ranged from \$20.95 to \$23.85 per square foot of living area. The subject's improvement assessment of \$23.68 per square foot of living area falls within the range established by these comparables. The Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that

the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
