

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Gintz
DOCKET NO.: 07-28043.001-R-1
PARCEL NO.: 02-14-413-011-0000

The parties of record before the Property Tax Appeal Board are Richard Gintz, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,618
IMPR.: \$ 14,049
TOTAL: \$ 22,667

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 1,296 square feet of living area. The dwelling is 80 years old. Features of the home include a full, finished basement and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one or one and one-half story frame dwellings that range in age from 53 to 81 years old. The comparable dwellings range in size from 1,209 to 1,608 square feet of living area. Each has a basement; two have fireplaces; and one has central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$10.24 to \$11.32 per square foot of living area. The subject's improvement assessment is \$17.66 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one or

one and one-half story frame or frame and masonry dwellings that range in age from seven to seventy-nine years old. The dwellings range in size from 2,098 to 3,033 square feet of living area. Three comparables have a full, unfinished basement, and one has a partial, finished basement. Three have central air conditioning, and two have two-car garages. These properties have improvement assessments ranging from \$13.94 to \$19.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The comparables submitted by the board of review were much larger than the subject and comparables two and four were considerably newer. As a result, the comparables submitted by the board of review received reduced weight in the Board's analysis. The Board finds that the comparables submitted by the appellant were the most similar to the subject in size, and, despite some differences, they were also very similar in style, exterior construction, age, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.24 to \$11.32 per square foot of living area. The subject's improvement assessment of \$17.66 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
