

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ty Field  
DOCKET NO.: 07-28044.001-R-1  
PARCEL NO.: 02-09-117-007-0000

The parties of record before the Property Tax Appeal Board are Ty Field, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 13,914  
**IMPR.:** \$ 30,563  
**TOTAL:** \$ 44,477

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a multi-level dwelling of frame and masonry construction containing 1,520 square feet of living area. The dwelling is 21 years old. Features of the home include a partial, finished basement, central air conditioning, two fireplaces, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as multi-level frame and masonry dwellings that range in age from 43 to 49 years old. The comparable dwellings range in size from 1,152 to 1,897 square feet of living area. Each has a partial basement; three have central air conditioning; and two have a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$11.29 to \$15.58 per square foot of living area. The subject's improvement assessment is \$20.11 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of multi-level frame and masonry dwellings that range in age from 35 to 44 years old. The dwellings range in size from 1,125 to 1,296 square feet of living area. Each has a finished basement, either full or partial, central air conditioning, and a garage, either two-car or two and one-half car. Three comparables have one or two fireplaces. These properties have improvement assessments ranging from \$20.26 to \$24.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the comparables submitted by both parties were very similar to the subject in style, exterior construction, and foundation, but they were all considerably older than the subject. In addition, the comparables numbered three and four by the appellant and the comparables submitted by the board of review differed considerably from the subject in size. The Board finds that none of the comparables was sufficiently similar to the subject. However, the Board notes that all of the comparables submitted had improvement assessments that ranged from \$11.29 to \$24.52 per square foot of living area. The subject's improvement assessment of \$20.11 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
