

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dennis Ritchie
DOCKET NO.: 07-28431.001-R-1
PARCEL NO.: 01-23-300-007-0000

The parties of record before the Property Tax Appeal Board are Dennis Ritchie, the appellant, by attorney James R. FortCamp of Seyfarth Shaw LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 51,144
IMPR.: \$ 9,096
TOTAL: \$ 60,240

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 2,610 square feet of living area. The dwelling is 147 years old. Features of the home include a partial unfinished basement, a fireplace, and a four-car detached garage. The dwelling is located in South Barrington, Barrington Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted an appraisal in which a market value of \$600,000 was estimated for the subject property as of January 1, 2007. The appraiser developed the sales comparison approach in order to estimate the market value of the subject property. The appraiser considered three comparable properties that sold from September 19 through October 13, 2006 for prices that ranged from \$575,000 to \$800,000. The comparable properties are one and one-half or two-story frame dwellings that range in age from 50 to 77 years old. The comparable properties range in size from 3,254 to 3,780 square feet of living area, and they are located from 1.92 to 7.04 miles from the subject. After identifying differences between the comparable properties and the subject, the appraiser made adjustments to the sale prices. As a result, the adjusted

sale prices of the comparable properties ranged from \$509,780 to \$774,880. Counsel requested that the 10% level of assessments on class 2 property in Cook County be applied to the finding of market value and that the subject's total assessment be reduced to \$60,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$78,792 was disclosed. The subject's assessment reflects a market value of \$784,781 or \$300.68 per square foot of living area, land included, using the 2007 three year average median level of assessments for class 2 property of 10.04% as determined by the Illinois Department of Revenue. The board of review presented no market value evidence. Instead, the board of review presented a description and assessment information on one equity property. The comparable property is a two-story frame dwelling that is located one-quarter mile from the subject. The dwelling is 65 years old, and it contains 2,226 square feet of living area. Features include a partial finished basement, central air conditioning, and a three and one-half car garage. This property has an improvement assessment of \$16,426 or \$7.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the appellant's appraisal is the best evidence of the subject's market value as of the January 1, 2007 assessment date. The appraiser estimated a market value of \$600,000 for the subject property as of January 1, 2007. The subject's assessment reflects a market value of \$784,781 and is in excess of the market value estimate contained in the appraisal report. The board of review submitted an equity comparable that was similar to the subject in nearly all respects, but the board of review did not address the overvaluation argument. The Board finds that the board of review did not refute the appellant's market value conclusion contained in the appraisal. Thus, the Board finds the subject has a market value of \$600,000 and the 2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as

Docket No: 07-28431.001-R-1

determined by the Illinois Department of Revenue shall apply. (86
Ill.Admin.Code 1910.59(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
