

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pol Gavaris
DOCKET NO.: 07-28457.001-C-1
PARCEL NO.: 13-12-121-055-0000

The parties of record before the Property Tax Appeal Board are Pol Gavaris, the appellant(s), by attorney Howard W. Melton, of Howard W. Melton and Associates of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 54,016
IMPR.: \$ 139,784
TOTAL: \$ 193,800

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 13,538 square foot parcel improved with a 45-year-old, one-story, masonry constructed five-unit retail strip center containing 8,633 square feet of building area and located in Jefferson Township, Cook County. The subject site is zoned B1-2, Neighborhood Shopping District by the City of Chicago.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming the subject's market value is not accurately reflected in its assessment. In support of this claim, the appellant submitted a summary appraisal report prepared by a State of Illinois certified real estate appraiser. The appraisal report disclosed that the appraiser inspected the subject property and determined the subject's highest and best use to be its current use. The appraiser utilized the sales

comparison approach to estimate a market value of \$510,000 for the subject as of January 1, 2006.

In the sales comparison approach to value, the appraiser employed the sales of five properties located within the subject's area. The comparables consist of one-story, retail buildings ranging from 15 to 83 years in age. The parcels range in size from 9,448 to 13,390 square feet of land area and the improvements range in size from 8,206 to 10,120 square feet of building area. The comparables sold between November 2001 and March 2003 for prices ranging from \$445,000 to \$585,000, or from \$45.00 to \$57.81 per square foot of building area, including land. After making adjustments, the appraiser concluded a value for the subject via the sales comparison approach of \$59.00 per square foot of building area, including land, or \$510,000, rounded as of January 1, 2006.

The appraisal report disclosed that all of the sales used were one-story retail buildings located in the subject's market area. Based on the evidence submitted, the appellant requested an assessment reflective of a fair market value for the subject of \$510,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$219,964, which reflects a market value of \$578,853 or \$67.05 per square foot of building area, utilizing the Cook County Real Property Assessment Classification Ordinance level of assessment of 38% for Class 5a property, such as the subject. As evidence, the board of review submitted seven sales with an unadjusted range of from \$115.28 to \$181.39 per square foot of building area, including land. No analysis or adjustment of the sales data was provided by the board. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist, 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arms-length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. (86 Ill.AdM.Code §1910.65(c)) Having reviewed the record and considering the evidence, the Board finds the appellant has satisfied this burden and a reduction is warranted.

In determining the fair market value of the subject property, the Property Tax Appeal Board finds the best evidence to be the appellant's appraisal report. The appellant's appraiser utilized the sales comparison approach to value to estimate the fair market value of the subject. The Board finds the appraisal to be persuasive for the appraiser; has experience in appraising; personally inspected the subject property and reviewed the subject's history; estimated a highest and best use for the subject property; utilized appropriate market data in undertaking the sales comparison approach to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The Board gives little weight to the board of review's comparables as the information provided was raw sales data with no adjustments made.

Therefore, the Property Tax Appeal Board finds that the subject had a fair market value of \$510,000 as of January 1, 2007. Since fair market value has been established, the Cook County Real Property Assessment Classification Ordinance level of assessment for Class 5a property of 38% shall apply. In applying this level of assessment to the subject, the assessed value is \$193,800, while the subject's current assessed value is above this amount at \$219,964. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
