

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jennifer Placek
DOCKET NO.: 07-28873.001-R-1
PARCEL NO.: 03-31-419-005-0000

The parties of record before the Property Tax Appeal Board are Jennifer Placek, the appellant(s), by attorney John J. Placek in Arlington Heights, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$11,549
IMPR.: \$46,699
TOTAL: \$58,248**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 13,125 square foot parcel of land improved with a 47-year old, two-story, frame or masonry, single-family dwelling containing 2,788 square feet of living area, two and one-half baths, a full unfinished basement, one fireplace, air conditioning, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of five properties suggested as comparable and located on the same street as the subject property. The properties are described as split-level or two-story, frame and masonry, single-family dwellings with between two and two and one-half baths, full finished or partial unfinished basements, air conditioning, one fireplace for four of the properties, and two-car garage. The properties range: in age from 45 to 46 years; in size from 1,617 to 1,932 square feet of living area; and in improvement assessments from \$19.80 to \$22.91 per square foot of living area. In addition, the appellant submitted photographs of the comparables and subject property. Photographs of the subject property included interior pictures of the subject showing its poor condition and damage. The appellant submitted print articles containing opinions of the declining real estate market as of 2007. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$46,699 or \$16.75 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable located within one-quarter mile of the subject property. The properties are described as two-story, frame and masonry, single-family dwellings with between two and two and one-half baths, a partial or full unfinished or finished basement, air conditioning, and one or two fireplaces. The properties range: in age from 43 to 48 years; in size from 2,467 to 3,042 square feet of living area; and in improvement assessments from \$16.68 to \$18.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of nine properties suggested as comparable to the subject. The PTAB finds the board of review's comparables and the appellant's comparable #4 most similar to the subject in age, size, design, and exterior construction. The properties are described as split-level or two-story, frame and masonry, single-family dwellings with between two and two and one-half baths, full or partial basements, and air conditioning. The properties range: in age from 43 to 46 years; in size from 1,617 to 2,820 square feet of living area; and in improvement assessments from \$16.68 to \$22.91 per square foot of living area. In comparison, the subject's improvement assessment of \$16.75 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
