

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sandra Ghilarducci
DOCKET NO.: 07-28884.001-R-1
PARCEL NO.: 03-34-413-008-0000

The parties of record before the Property Tax Appeal Board are Sandra Ghilarducci, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 9,884
IMPR.: \$ 23,812
TOTAL: \$ 33,696**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,165 square feet of living area. The dwelling is 53 years old, and it has a full, unfinished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. On the grid analysis, four of the seven are described as one or one and one-half story frame or frame and masonry dwellings that range in age from 47 to 58 years old. None of the four comparables has a basement, but one has a fireplace. The appellant did not include any information concerning garages for these properties. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparable dwellings range in size from 1,182 to 1,447 square feet of living area. These properties have improvement assessments ranging from \$15.36 to \$17.55 per square foot of living area. The subject's improvement assessment is \$20.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that are either 53 or 54 years old. One of the comparables is located on the same block as the subject, and the other three are located approximately one-quarter mile from the subject. The dwellings range in size from 1,132 to 1,157 square feet of living area. Each comparable has a one-car garage and an unfinished basement, either full or partial. One dwelling has central air conditioning, and another has a fireplace. These properties have improvement assessments ranging from \$20.85 to \$21.30 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in December 2005 for \$360,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eleven equity comparables. The appellant's comparables numbered five, six, and seven received little weight in the Board's analysis, because the appellant did not provide enough information to indicate whether they were actually comparable to the subject property. The appellant's comparables numbered one through four differed from the subject in exterior construction and foundation and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in location, size, style, exterior construction, foundation, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.85 to \$21.30 per square foot of living area. The subject's improvement assessment of \$20.44 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
