

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Weber
DOCKET NO.: 07-29139.001-R-1
PARCEL NO.: 03-32-329-001-0000

The parties of record before the Property Tax Appeal Board are Joseph Weber, the appellant, by attorney Ronald G. Glosniak, of Leff & Cohen in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 23,200
IMPR.: \$ 75,296
TOTAL: \$ 98,496

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story single-family dwelling of masonry construction containing 4,836 square feet of living area. The dwelling is nine years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a two and one-half car attached garage. The subject is located in Arlington Heights, Wheeling Township, Cook County, and its assigned neighborhood code is 52.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame, masonry, or frame and masonry dwellings that range in age from 10 to 13 years old. The comparables' assigned neighborhood code is 26, and their proximity to the subject was not disclosed. The comparable dwellings range in size from 4,088 to 4,417 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, and a three-car attached garage. Two dwellings have a fireplace. The comparables have improvement assessments of either \$12.49 or \$13.62 per square foot of living area. The subject's improvement assessment is \$15.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from three to ten years old. The comparables have the same assigned neighborhood code as the subject, and one is located one-quarter mile from the subject property. The dwellings range in size from 3,954 to 4,370 square feet of living area, and one is in deluxe condition. Each comparable has a full unfinished basement, central air conditioning, one or two fireplaces, and an attached garage, either two-car or three-car. These properties have improvement assessments ranging from \$15.73 to \$16.74 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. All of the comparables submitted by both parties were two-story dwellings that were very similar to the subject in age and features and were generally similar in size. However, the appellant's comparables had a different assigned neighborhood code than the subject, and their proximity to the subject was not disclosed. In addition, the appellant's comparables numbered one and two had different exterior construction. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in location and were also very similar in exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.73 to \$16.74 per square foot of living area. The subject's improvement assessment of \$15.57 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
