

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael LaBarbera
DOCKET NO.: 07-29171.001-R-1
PARCEL NO.: 12-36-316-010-0000

The parties of record before the Property Tax Appeal Board are Michael LaBarbera, the appellant, by attorney Thomas P. Cerone in Elmwood Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$7,409
IMPR.: \$37,560
TOTAL: \$44,969**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame and masonry construction containing 2,285 square feet of living area. The dwelling is 61 years old. Features of the home include a partial, unfinished¹ basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as class 2-78 frame or frame and masonry dwellings that were 54 or 56 years old. The comparable dwellings range in size from 2,351 to 3,385 square feet of living area. All comparables feature full or partial basements, one of which is finished. Two of the comparables have central air conditioning and one has a fireplace. Two have 1 or 2-car garages. The comparables have improvement assessments ranging from \$13.21 to \$15.67 per square foot of living area. The subject's improvement assessment is \$16.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ Property characteristics sheet indicates basement is unfinished but appellant indicates basement is partially finished.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story frame and masonry dwellings that range in age from 57 to 61 years old. The dwellings range in size from 2,113 to 2,292 square feet of living area. All comparables feature full or partial basements, one of which is finished. Three comparables feature central air conditioning and two have fireplaces. All comparables have 1, 2 or 2½-car garages. These properties have improvement assessments ranging from \$16.40 to \$18.17 per square foot of living area. The board of review also disclosed that comparable #1 was purchased in April 2005 for \$400,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparable #2 submitted by the appellant was frame construction rather than frame and masonry, and comparable #1 submitted by the appellant was considerably larger than the subject. Therefore, these comparables received less weight in the Board's analysis. The Board finds comparable #3 submitted by the appellant and all four comparables submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.67 to \$18.17 per square foot of living area. The subject's improvement assessment of \$16.44 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
