

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Leszek Damrat
DOCKET NO.: 07-29184.001-R-1
PARCEL NO.: 04-32-401-073-0000

The parties of record before the Property Tax Appeal Board are Leszek Damrat, the appellant, by attorney Edward Larkin, of Larkin & Larkin in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,316
IMPR.: \$ 50,068
TOTAL: \$ 59,384

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 36-year old, two-story, masonry, multi-family dwelling with six units. It contains 4,928 square feet of living area and is situated on a 9,705 square foot lot. Features include six full baths, nine bedrooms, and a partial basement with an apartment.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables, all located within a one block radius of the subject. The properties are improved with a two or three-story, masonry or frame and masonry, multi-family dwelling with six units. They range: in age from 35 to 36 years; in size from 5,559 to 6,210 square feet of living area; and in improvement assessment from \$8.59 to \$9.87 per square foot of living area. The subject's improvement assessment is \$10.16 per square foot of living area. Amenities for the suggested comparable properties include six full baths and a full basement with an apartment for

one property. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$50,068 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data relating to four suggested comparables located within the subject's neighborhood, all of which are located on the same block as the subject. The properties are improved with a 4,928 square foot, two-story, masonry, multi-family dwelling with six units. They range in age from 36 to 37 years and in improvement assessment from \$10.18 to \$10.72 per square foot of living area. Amenities for the properties include six full baths, nine bedrooms, and a partial basement with an apartment. Based on this evidence, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds that comparables #1 through #4 submitted by the board of review are most similar to the subject in improvement size, age, location, exterior construction, and/or amenities. They are two-story, masonry, multi-family dwellings containing 4,928 square feet of living area, all of which are located on the same block as the subject. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$10.18 to \$10.72 per square foot of living area. The subject's improvement assessment at \$10.16 per square foot is below the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the

constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
