

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Waltz
DOCKET NO.: 07-29185.001-R-1
PARCEL NO.: 04-26-200-147-0000

The parties of record before the Property Tax Appeal Board are Kevin Waltz, the appellant, by attorney Edward Larkin, of Larkin & Larkin in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,676
IMPR.: \$44,946
TOTAL: \$70,622

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 47-year old, one-story, frame and masonry, single-family dwelling. It contains 2,043 square feet of living area and is situated on a 21,397 square foot lot. Features include two and one half-baths, two bedrooms, central air conditioning, a full, unfinished basement, one fireplace, and a two and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables. The properties are improved with a class 2-04, one or one and one-half story, frame and masonry, single-family dwelling, all of which are located in the subject's neighborhood. They range: in age from 65 to 82 years; in size from 2,248 to 2,457 square feet of living area; and in improvement assessment from \$19.07 to \$23.75 per square foot of living area. The subject's improvement assessment is \$26.00 per square foot of living area. Amenities for the suggested comparable properties include two or two and one half-baths, a

full, unfinished basement for two properties, central air conditioning for two properties, one or two fireplaces, and a two-car garage. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$53,118 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data, as well as black and white photographs, relating to four suggested comparables located within the subject's neighborhood. The subject property is located in Glenview, however, while the board's comparables are located in Northfield. The properties are improved with a one-story, frame and masonry, single-family dwelling. They range: in age from 50 to 53 years; in size from 2,611 to 3,274 square feet of living area; and in improvement assessment from \$24.38 to \$28.68 per square foot of living area. Amenities for the properties include two and one half-baths, three or five bedrooms, a partial, unfinished basement for two properties, central air conditioning, one or two fireplaces, and a two or two and one-half car garage. The board of review also noted that comparable #3 sold in February of 2007 for \$975,000, or \$373.42 per square foot, including land. Based upon this evidence, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The parties submitted a total of 7 comparable properties for the Board's consideration. The Board finds that comparables #1 through #3 submitted by the appellant are most similar to the subject in location, improvement size and/or amenities. They are all located in Glenview and contain between 2,248 and 2,457 square feet of living area. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$19.07 to \$23.75 per square foot of living area. The subject's improvement assessment at \$26.00 per square foot is above the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
