

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jacek Kulas
DOCKET NO.: 07-29263.001-R-1
PARCEL NO.: 04-03-109-012-0000

The parties of record before the Property Tax Appeal Board are Jacek Kulas, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 14,871
IMPR.: \$ 91,244
TOTAL: \$ 106,115**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 4,599 square feet of living area. The dwelling is seven years old. Features of the home include a full, finished basement, central air conditioning, two fireplaces, and a three-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story stucco, masonry, or frame and masonry dwellings that range in age from three to sixteen years old. The comparables have the same assigned neighborhood code as the subject, and one is located on the same tax block as the subject property. The comparable dwellings range in size from 4,568 to 4,922 square feet of living area. Each dwelling has central air conditioning and a full basement, one of which is finished. Each comparable has an attached garage, from two and one-half to three and one-half car, and three have one or two fireplaces. The comparables have improvement assessments ranging from \$16.09 to \$18.63 per square foot of living area. The subject's improvement assessment is \$19.84 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one or two-story frame or masonry dwellings that range in age from one to fifty-seven years old. The comparables have the same assigned neighborhood code as the subject. One is located on the same tax block as the subject, and another is located one-quarter mile from the subject. The dwellings range in size from 1,095 to 4,459 square feet of living area. Three have a full, unfinished basement, central air conditioning, and one or two fireplaces. Each comparable has an attached garage, from two to three and one-half car. These properties have improvement assessments ranging from \$3.69 to \$21.61 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables numbered two through four were somewhat larger in size than the subject and received reduced weight in the Board's analysis. The comparable numbered two by the board of review was somewhat smaller than the subject and also received reduced weight. The comparable numbered four by the board of review differed significantly in age and size and also differed in style and exterior construction. As a result, this comparable received little weight in the Board's analysis. The Board finds the appellant's comparable numbered four and the comparables numbered one and three by the board of review were most similar to the subject in size. They were also very similar in age, style, and exterior construction. Due to their similarities to the subject, these three comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$18.63 to \$21.39 per square foot of living area. The subject's improvement assessment of \$19.84 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
