

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Olshansky  
DOCKET NO.: 07-29267.001-R-1  
PARCEL NO.: 04-10-206-035-0000

The parties of record before the Property Tax Appeal Board are Michael Olshansky, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 17,539**  
**IMPR.:    \$ 168,183**  
**TOTAL:    \$ 185,722**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story, single-family dwelling of masonry construction containing 6,252 square feet of living area. The dwelling is four years old. Features of the home include a full, finished basement, central air conditioning, two fireplaces, and a four-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story stucco or masonry dwellings that range in age from seven to fifty-six years old. The comparables have the same assigned neighborhood code as the subject. The comparable dwellings range in size from 6,440 to 6,786 square feet of living area. Each comparable has central air conditioning, one to three fireplaces, and a three-car attached garage. One dwelling has a partial, finished basement, and two have unfinished basements, either full or partial. The comparables have improvement assessments ranging from \$15.98 to \$25.76 per square foot of living area. The subject's improvement assessment is \$26.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that are either two or four years old. The comparables have the same assigned neighborhood code as the subject. One of the comparables is located in the same tax block as the subject, and another one is located one-quarter mile from the subject. The dwellings range in size from 5,658 to 6,229 square feet of living area. Each comparable has a full, finished basement, central air conditioning, one to three fireplaces, and a three or four-car attached garage. These properties have improvement assessments ranging from \$5.38 to \$29.88 per square foot of living area. The comparable assessed at \$5.38 per square foot of living area has a partial assessment due to new construction. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparables numbered one and two were older than the subject and received reduced weight in the Board's analysis. The comparable numbered three by the board of review had a partial improvement assessment that reflected new construction, and, as a result, this comparable also received reduced weight. The Board finds the appellant's comparable numbered three and the comparables numbered one and two by the board of review were most similar to the subject in size and were very similar in style, exterior construction, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$25.76 to \$29.88 per square foot of living area. The subject's improvement assessment of \$26.90 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
