

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lloyd Conant  
DOCKET NO.: 07-29285.001-R-1  
PARCEL NO.: 04-25-106-036-0000

The parties of record before the Property Tax Appeal Board are Lloyd Conant, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 19,135  
IMPR.:     \$ 82,802  
TOTAL:    \$ 101,937**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,011 square feet of living area. The dwelling is 65 years old and is in deluxe condition. Features of the home include a partial, unfinished basement, central air conditioning, and two fireplaces.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or frame and masonry dwellings that range in age from 68 to 81 years old. The comparable dwellings are assigned the same neighborhood code as the subject property, and two are located in the same tax block as the subject property. The comparable dwellings range in size from 2,861 to 3,192 square feet of living area. Each comparable has a two-car attached garage; two dwellings have central air conditioning; three have one or two fireplaces; and two have partial basements, either finished or unfinished. The comparables have improvement assessments ranging from \$24.28 to \$29.01 per square foot of living area. The subject's improvement assessment is \$33.78 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 63 to 68 years old. The comparable dwellings are assigned the same neighborhood code as the subject property, and two are located one-quarter mile from the subject property. The dwellings are in average condition, and they range in size from 2,213 to 2,755 square feet of living area. Each comparable has central air conditioning and one or two fireplaces; three dwellings have full basements, two of which are finished; and three comparables have two-car attached garages. These properties have improvement assessments ranging from \$29.60 to \$33.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The comparables submitted by the board of review were significantly smaller in size than the subject and received reduced weight in the Board's analysis. The Board finds the comparables numbered two through four by the appellant were very similar to the subject in location, size, style, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of either \$26.75 or \$29.01 per square foot of living area. The subject's improvement assessment of \$33.78 per square foot of living area falls above these assessments. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
