

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gregory Nold
DOCKET NO.: 07-29632.001-R-1
PARCEL NO.: 04-34-103-012-0000

The parties of record before the Property Tax Appeal Board are Gregory Nold, the appellant, by attorney Timothy C. Jacobs of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 12,911
IMPR.: \$ 42,152
TOTAL: \$ 55,063**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1,653 square feet of living area. The dwelling is 46 years old. Features of the home include a full, finished basement, central air conditioning, a fireplace, and a two-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as one-story frame dwellings that range in age from 54 to 114 years old. According to the appellant, the comparables are located either one-half or one mile from the subject. The comparable dwellings range in size from 1,188 to 1,679 square feet of living area. One dwelling has a full finished basement; another has a partial unfinished basement; and three do not have basements. Three comparables have a garage, and two have a fireplace. The comparables have improvement assessments ranging from \$20.69 to \$23.12 per square foot of living area. The subject's improvement assessment is \$25.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame and masonry dwellings that range in age from 50 to 53 years old. The comparables have the same assigned neighborhood code as the subject. The dwellings range in size from 1,515 to 1,695 square feet of living area. Two dwellings have partial unfinished basements, and two have finished basements, either full or partial. Each comparable has one or two fireplaces and a garage, and one comparable has central air conditioning. These properties have improvement assessments ranging from \$25.53 to \$27.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of nine equity comparables. The appellant's comparables numbered one and two were much older than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables numbered three through five and the comparables submitted by the board of review were very similar to the subject in age and size, and the board of review's comparables were most similar in exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These seven comparables had improvement assessments that ranged from \$20.69 to \$27.04 per square foot of living area. The subject's improvement assessment of \$25.50 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
