

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick Miller
DOCKET NO.: 07-29745.001-R-1
PARCEL NO.: 18-07-401-033-0000

The parties of record before the Property Tax Appeal Board are Patrick Miller, the appellant, by attorney Thomas J. Thorson in Oak Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,660
IMPR.: \$ 82,566
TOTAL: \$ 92,226

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a three-year old, 3,880 square foot, two-story, single-family dwelling of masonry construction. Features of the home include a full finished basement, central air conditioning, a fireplace and a two-car garage. The subject is situated on a 10,500 square foot lot.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted information on four suggested comparable properties described as two-story, masonry or masonry and frame, single-family dwellings that range in age from seven to 52 years old. The comparables are located on the same street as the subject and range in size from 3,892 to 3,979 square feet of living area. Features include a two or a three car garage, central air conditioning and one or two fireplaces. The appellant did not include any data concerning basements. The comparables have improvement assessments that range from \$69,804 to \$79,102 or \$17.57 to \$19.88 per square foot of living area. The subject's improvement assessment is \$21.28 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$92,226 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story, masonry, single-family dwellings that range in age from one to 12 years old. These comparables range in size from 4,075 to 4,186 square feet of living area and are located in the subject's subarea with comparable #4 located within a quarter mile of the subject. Features include a full basement, air conditioning, and one to three fireplaces. These properties have improvement assessments that range \$90,912 to \$100,984 or \$21.86 to \$24.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted eight suggested comparable properties for the Board's consideration. The Board finds the appellant's comparables #1 and #3 and the board of review's comparable #1 to be the most similar to the subject property due to their similarity in size, age and proximity to the subject. These comparables had improvement assessments that ranged from \$18.84 to \$24.78 per square foot of living area. The subject's improvement assessment of \$21.26 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's

assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
