

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Mayer
DOCKET NO.: 07-29802.001-R-1 through 07-29802.003-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Daniel Mayer, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-29802.001-R-1	03-31-205-021-0000	3,101	10,451	\$13,552
07-29802.002-R-1	03-31-205-022-0000	3,101	20,903	\$24,004
07-29802.003-R-1	03-31-205-023-0000	3,101	10,451	\$13,552

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,525 square foot parcel of land improved with a 47-year old, one-story, masonry, single-family dwelling. The improvement contains 1,972 square feet of living area, and two and one-half baths. Additional features include air conditioning, one fireplace, a full basement finished with a formal recreation room, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of six properties suggested as comparable. The properties are located over one-mile distance from the subject. The properties are improved with one or one and one-half story, frame, masonry or frame and masonry, single-family dwellings. The properties range in age from 46 to 57 years; contain from 1,852 to 2,070 square feet of living area with one to two baths. The improvement assessments range from \$12.46 to \$14.43 per square foot of living area. The subject's improvement assessment is \$21.20 per square foot of living area.

The properties also contain: air conditioning for three properties, one fireplace for two properties, below grade features include: crawl or slab for four properties, full or partial unfinished basements for two properties, and one to two-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$41,806 or \$21.19 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood, one of which is within one quarter mile of the subject. The properties are improved with one-story, masonry, single-family dwellings. The properties range in age from 47 to 51 years; in size from 1,823 to 2,011 square feet of living area; and with one and one-half to two and one-half baths. The properties also include partial or full basements finished with a formal recreation room, air conditioning for three properties, one fireplace for two properties, and two car garage areas. The properties have improvement assessments ranging from \$21.44 to \$24.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of ten properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in location, improvement size, design, exterior construction, amenities and age. These comparables ranged in improvement assessments from \$21.44 to \$24.97 per square foot. The subject's improvement assessment of \$21.19 per square foot of living area is within the range established by these comparables. Further, the Board accorded diminished weight to the remaining properties due to a disparity in location, design and amenities. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
