

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Louis Carini
DOCKET NO.: 07-30078.001-C-1
PARCEL NO.: 12-26-420-024-0000

The parties of record before the Property Tax Appeal Board are Louis Carini, the appellant(s), by attorney Robert J. Paul in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$68,200
IMPR.: \$0
TOTAL: \$68,200

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a vacant parcel of land containing 22,021 square feet of land. The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

In support of the market value argument, the appellant's pleadings included a summary appraisal of the subject property with an effective date of January 1, 2007 undertaken by Matthew T. Kang, a licensed real estate appraiser and Gary T. Peterson who holds an MAI/MBA designation and is a certified general real estate appraiser. The appraisers estimated a market value for the subject of \$310,000.

The subject was inspected on December 21, 2007. The appraiser indicated that the subject's highest and best use as vacant would be a build to suit commercial development.

The appraisers developed the sales comparison approach to value.

Under the sales comparison approach to value, the appraiser utilized four sale comparables. These comparables sold from February 2004 through August 2006 for prices that ranged from \$200,000 to \$700,000 or from \$13.26 to \$16.00 per square foot.

The properties ranged in land size from 12,502 to 51,400 square feet of land area. After making adjustments to the suggested comparables, the appraisers estimated that the subject's market value was \$14.00 per square foot or \$310,000 rounded, as of January 1, 2007. Based upon this data, the appellant requested a reduction in the subject's market value.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$96,892 for the tax year 2007. The subject's assessment reflects a market value of \$440,418 or \$20.00 per square foot using the Cook County Ordinance Level of Assessment for Class 1, vacant property of 22%.

In support of the subject's market value, raw sales data was submitted for nine condominium/townhouse/retail proposed sites held for development. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but failed to indicate that there was any verification of the information or sources of data. The properties sold from January 2005, to September 2007, in an unadjusted range from \$345,000 to \$40,666,667 or from \$22.40 to \$67.60 per square foot of land. The properties contained land that ranged in size from 6,251 to 601,564 square feet. As a result of its analysis, the board requested confirmation of the subject's assessment.

At hearing, the appellant's attorney, Mr. Robert J. Paul and the board of review analyst, Mr. Chris Beck rested on the evidence previously submitted.

After considering the arguments, testimony, and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed, the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3d Dist. 2002; Winnbago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d (2d Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill. Admin. Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction in the subject's assessment is warranted.

In determining the fair market value of the subject property, the Board accorded diminished weight to the properties submitted by the board of review as the evidence provided unconfirmed, raw data on sales.

Further, as to the subject's market value, the Board finds that the appellant's appraisers utilized the sales comparison approach

to value in developing the subject's market value. The Board finds this appraisal to be persuasive for the appraisers: have extensive experience in appraising and assessing property; personally inspected the subject property; estimated a highest and best use for the property; and utilized market data in undertaking the sales comparison approach to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary.

Therefore, the Board finds that the subject property contained a market value of \$310,000 for the tax year 2007. Since the market value of the subject has been established, the Cook County Ordinance level of assessment for Class 1, vacant property of 22% will apply. In applying this level of assessment to the subject, the total assessed value is \$68,200, while the subject's current total assessed value is above this amount at \$96,892. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
