

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sharon Stern
DOCKET NO.: 07-30120.001-R-1
PARCEL NO.: 04-24-300-017-0000

The parties of record before the Property Tax Appeal Board are Sharon Stern, the appellant(s), by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$33,234
IMPR: \$74,108
TOTAL: \$107,342

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 48,874 square foot parcel of land improved with a 55-year old, one-story, frame and masonry, single-family dwelling containing 2,356 square feet of living area, two and one-half baths, a partial unfinished basement, three fireplaces, and a two and one-half car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of 14 properties suggested as comparable and located within five blocks of the subject property. The properties are described as one or one and one-half story, masonry, frame, stucco, or frame and masonry, single-family dwellings with between one and one-half and two and one-half baths, full or partial, finished or unfinished basements for nine of the properties, air conditioning for eight of the properties, and one or two fireplaces. The properties range: in age from 48 to 101 years; in size from 2,001 to 2,658 square feet of living area; and in improvement assessments from \$6.47 to \$24.77 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$74,108 or \$31.46 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood. The properties are described as one-story, frame and masonry, single-family dwellings with two full or two and one-half baths, a partial unfinished basement, and one to two fireplaces. The properties range: in age from 46 to 53 years; in size from 2,460 to 2,652 square feet of living area; and in improvement assessments from \$28.68 to \$56.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of 18 properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1, #2, and #3 and the appellant's comparables #3 and #7 most similar to the subject in size, design, construction, and location. The properties are described as one-story, frame and masonry, single-family dwellings with between two and two and one-half baths, one or two fireplaces, partial unfinished basements for four of the properties, air conditioning. The properties range: in age from 46 to 58 years; in size from 2,611 to 2,658 square feet of living area; and in improvement assessments from \$21.12 to \$56.98 per square foot of living area. In comparison, the subject's improvement assessment of \$31.46 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
