

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Seyed Firozabadi
DOCKET NO.: 07-30185.001-R-1
PARCEL NO.: 17-05-309-077-0000

The parties of record before the Property Tax Appeal Board are Seyed Firozabadi, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,523
IMPR.: \$ 27,223
TOTAL: \$ 36,746

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a two-story, multi-family dwelling of masonry construction containing 1,520 square feet of living area. The dwelling is 116 years old. Features of the dwelling include a full unfinished basement. The dwelling is situated on a 2,976 square foot lot located in West Chicago Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In the support of this claim, the appellant submitted descriptions and assessment information on three suggested properties. They consist of multi-family, masonry, frame or frame and masonry dwellings that range in age from 116 to 118 years old. The comparable dwellings range in size from 2,010 to 2,200 square feet of living area. The comparables are located in the same neighborhood code and within three blocks of the subject property. Two properties have a full unfinished or a full finished basement. One property has a one-car garage. The comparables have improvement assessments ranging from \$38,544 to \$43,455 or \$14.31 to \$15.42 per square foot of living area. The subject's improvement assessment is \$27,223 or \$17.91 per square foot of living area. Based on this evidence, the appellant

requested a reduction in the subject's improvement assessment to \$22,360 or \$14.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$36,746 was disclosed. The subject's improvement assessment is \$27,223 or \$17.91 per square foot of living area. In support of the subject's assessment, the board of review presented descriptions and assessment information on four comparable properties. They consist of two-story, masonry, multi-family dwellings that range in age from 108 to 123 years old. The dwellings range in size from 1,554 to 1,668 square feet of living area. The comparables are located in the same neighborhood code as the subject property. Features include a full unfinished basement and one property has a two-car garage. These properties have improvement assessments ranging from \$30,110 to \$32,775 or \$18.05 to \$20.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of seven comparables for the Board's consideration. The Board gave less weight to appellant's comparables due to larger size when compared to the subject. The Board finds comparables submitted by the board of review are most similar to the subject in location, size, age, style, exterior construction and features. These comparables had improvement assessments that ranged from \$30,110 to \$32,775 or \$18.05 to \$19.89 per square foot of living area. The subject's improvement assessment of \$17.91 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution

requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
