

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Linda & Michael Unger  
DOCKET NO.: 07-30189.001-R-1  
PARCEL NO.: 13-36-301-011-0000

The parties of record before the Property Tax Appeal Board are Linda & Michael Unger, the appellants, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 6,889**  
**IMPR.:    \$ 30,386**  
**TOTAL:    \$ 37,275**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a two-story, multi-family dwelling of frame construction containing 2,124 square feet of living area. The dwelling is 113 years old. The dwelling is situated on a 3,250 square feet lot located in West Chicago Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In the support of this claim, the appellants submitted descriptions and assessment information on four suggested properties. They consist of two-story, multi-family, masonry or frame dwellings that range in age from 99 to 123 years old. The comparable dwellings range in size from 2,024 to 2,728 square feet of living area. The comparables are located within seven blocks of the subject property. Features include a full unfinished or a finished basement. These properties have a garage that ranges from a one-car to a three-car. The comparables have improvement assessments ranging from \$25,389 to \$33,530 or \$11.44 or \$12.54 per square foot of living area. The subject's improvement assessment is \$30,386 or \$14.31 per square foot of living area. Based on this evidence, the appellants

requested a reduction in the subject's improvement assessment to \$25,828 or \$12.16 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$37,275 was disclosed. The subject's improvement assessment is \$30,386 or \$14.31 per square foot of living area. In support of the subject's assessment, the board of review presented descriptions and assessment information on four comparable properties. They consist of two-story, multi-family, frame dwellings that range in age from 111 to 118 years old. The dwellings range in size from 1,826 to 2,096 square feet of living area. The properties are located in the same neighborhood code as the subject property. Features include a one-car or a two-car garage for three properties. These properties have improvement assessments ranging from \$26,422 to \$30,143 or \$14.38 to \$16.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellants contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties submitted a total of eight comparables for the Board's consideration. The Board gave less weight to appellants' comparables #1 and # 2 due to exterior construction and comparable #3 due to larger size when compared to the subject property. The Board finds the comparable #4 submitted by the appellants and comparables submitted by the board of review are most similar to the subject in location, size, age, style, exterior construction and features. These comparables had improvement assessments that ranged from \$25,389 to \$30,143 or \$12.54 to \$16.04 per square foot of living area. The subject's improvement assessment of \$14.31 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area

are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
