

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wendy Freeman
DOCKET NO.: 07-30287.001-R-1
PARCEL NO.: 14-33-104-078-0000

The parties of record before the Property Tax Appeal Board are Wendy Freeman, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 21,729
IMPR.: \$ 95,846
TOTAL: \$ 117,575

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 128 year old, three-story, multifamily dwelling of masonry construction. It contains 4,275 square feet of living area and is situated on a 2,650 square foot lot. Features of the dwelling include one fireplace, a full basement apartment, three bathrooms, and air conditioning.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted descriptions and assessment information regarding three suggested comparable properties located within 4 blocks of the subject property. The suggested comparables are described as two or three-story masonry, multifamily dwellings that range in age from 117 to 121 years old and range in size from 3,454 to 5,204 square feet of living area. Features include a three-car detached garage, two to five bathrooms, and a basement apartment. These comparables have improvement assessments that range from \$14.31 to \$17.97 per square foot of living area. The subject's improvement assessment is \$22.42 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$117,575 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information regarding four suggested comparable properties located within four blocks of the subject property. The suggested comparables consist of three-story, masonry, multifamily dwellings that range in age from 113 to 118 years old and range in size from 4,020 to 4,722 square feet of living area. Features include a basement apartment, two fireplaces, three to six bathrooms. These properties have improvement assessments that range from \$22.42 to \$23.45 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds comparable #2 submitted by the appellant and comparables #1 and #4 submitted by the board of review were the most similar to the subject in size, location and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$16.25 to \$22.49 per square foot of living area. The subject's improvement assessment of \$22.42 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds

that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
