

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 2316 Sheffield LLC
DOCKET NO.: 07-30637.001-R-1
PARCEL NO.: 14-32-203-014-0000

The parties of record before the Property Tax Appeal Board are 2316 Sheffield LLC, the appellant, by attorney Thomas M. Battista of Rock, Fusco & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,344
IMPR: \$111,268
TOTAL: \$130,612

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story, four-unit apartment building of masonry construction containing 5,912 square feet of living area. The dwelling is 110 years old. Features of the building include a full unfinished basement and a 2-car garage. The property is classified as a Class 2-11 residential property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as Class 2-11, residential masonry dwellings that range in age from 80 to 118 years old. The comparable dwellings range in size from 5,955 to 6,457 square feet of living area. The appellant did not include any data concerning basement area or garages for the comparables. The comparables have improvement assessments ranging from \$15.03 to \$17.37 per square foot of living area. The appellant also submitted PTAB decision Docket Number 06-28550.001-R-1 which resulted in a reduction. The subject's improvement assessment is \$18.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of three-story masonry dwellings that range in age from 113 to 127 years old. The dwellings range in size from 5,040 to 5,388 square feet of living area. Each comparable has a full basement of which one basement is finished with an apartment. One comparable has central air conditioning. Each comparable has a garage ranging from 2-car to 3-car. These properties have improvement assessments ranging from \$18.75 to \$20.57 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #3 submitted by the appellant and comparables #1, #2 and #3 submitted by the board of review were most similar to the subject in location, size, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.03 to \$20.57 per square foot of living area. The subject's improvement assessment of \$18.82 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
