

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Hyatt
DOCKET NO.: 07-30866.001-R-1
PARCEL NO.: 05-27-100-040-0000

The parties of record before the Property Tax Appeal Board are William Hyatt, the appellant(s), by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 37,867
IMPR.: \$ 74,581
TOTAL: \$112,448

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property has 13,542 square feet of land, which is improved with a 45 year old, two-story, frame and masonry, single-family dwelling containing 3,206 square feet of living area. The dwelling contains three and one-half baths, a partial basement with a formal recreation room, a fireplace, air conditioning, and a two-car garage. The appellant, via counsel, argued that the fair market value of the subject was not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted an appraisal undertaken by Gary Wydra of City Wide Appraisal Services, Inc. The report states that Wydra is licensed as a State of Illinois certified residential real estate appraiser. The appraiser stated that the subject has an estimated market value of \$1,120,000 as of January 1, 2007. The appraisal report utilized the sales comparison approach to value to estimate the market value for the subject property. The appraisal states that Wydra personally inspected the property, and that the subject's highest and best use as improved is its present use.

Under the sales comparison approach, the appraiser analyzed the sales of three comparables, described as two-story, frame, masonry, or frame and masonry, single-family dwellings that range

in age from 67 to 86 years old, and in size from 2,724 to 3,364 square feet of living area. These sales comparables sold from March 2006 to November 2006 for prices ranging from \$1,092,500 to \$1,120,000, or from \$326.99 to \$411.16 per square foot of living area. The appraiser adjusted each of the comparables for pertinent factors. Based on the similarities and differences of the comparables when compared to the subject, the appraiser estimated a value for the subject under the sales comparison approach of \$1,120,000.

The cost approach to value and the income approach to value were not developed for the appraisal. The appraiser stated that the sales comparison approach to value is considered the most reliable, and therefore, is given the most weight when appraising a single-family dwelling. Thus, the appraiser concluded that the subject's appraised value was \$1,120,000 as of January 1, 2007. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$162,394 was disclosed. The subject's final assessment reflects a fair market value of \$1,617,470 when the 2007 Illinois Department of Revenue three-year median level of assessment for Class 2 properties of 10.04% is applied. In support of the subject's assessment, the board of review presented descriptions and assessment information on three suggested comparables described as two-story, frame, masonry, or frame and masonry, single-family dwellings that range in age from 50 to 55 years old, and in size from 2,806 to 3,546 square feet of living area. The comparables have from two and one-half to four and one-half baths, and either one or two fireplaces. One of the dwellings has a full basement with a formal recreation room, one has a full unfinished basement, and one has a partial unfinished basement. All of the properties have air conditioning and a two-car garage. The comparables have improvement assessments ranging from \$34.00 to \$38.84 per square foot of living area.

In rebuttal, the appellant affirmed the evidence previously submitted, and waived the original request for an oral hearing.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 339 Ill. App. 3d 529, 545 (1st Dist. 2002); National City Bank of Michigan/Illinois v. Prop. Tax Appeal Bd., 331 Ill. App. 3d 1038, 1042 (3d Dist. 2002) (citing Winnebago Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 313 Ill. App. 3d 179 (2d Dist. 2000)); 86 Ill. Admin. Code § 1910.63(e). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. Calumet Transfer,

LLC v. Prop. Tax Appeal Bd., 401 Ill. App. 3d 652, 655 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the Board finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The Board finds this appraisal to be persuasive because the appraiser has experience in appraising, personally inspected the subject property and reviewed the property's history, and used similar properties in the sales comparison approach while providing adjustments that were necessary. The Board gives little weight to the board of review's comparables as the information provided did not address the appellant's market value argument.

Therefore, the Board finds the subject had a market value of \$1,120,000 for the 2007 assessment year. Since the market value of this parcel has been established, the 2007 Illinois Department of Revenue three-year median level of assessment for Class 2 property of 10.04% will apply. In applying this level of assessment to the subject, the total assessed value is \$112,448 while the subject's current total assessed value is above this amount. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
