

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jon Stoja
DOCKET NO.: 07-30907.001-C-1
PARCEL NO.: 13-12-231-010-0000

The parties of record before the Property Tax Appeal Board are Jon Stoja, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 12,943
IMPR: \$ 67,363
TOTAL: \$ 80,306**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 5,625 square feet of land that is improved with a 79 year old, three-story, masonry, apartment building. The subject's improvement size is 9,834 square feet of building area with 13 apartment units, which equates to an improvement assessment of \$10.15 per square foot of building area. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment information for three properties suggested as comparable to the subject. The comparables are described as three-story, masonry, apartment buildings. Additionally, the comparables range: in age from 77 to 79 years; in size from 10,068 to 12,603 square feet of building area; and in improvement assessments from \$5.47 to \$6.85 per square foot of building area. The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted it "Board of Review-Notes on Appeal," wherein the subject's final assessment of \$112,732 was disclosed. In support of the subject's

assessment, the board of review submitted a property record card for the subject, and raw sales data for 11 apartment buildings located within one mile of the subject. The sales data was collected from the CoStar Comps service, and the CoStar Comps sheets state that the research was licensed to the Cook County Assessor's Office. However, the board of review included a memorandum which states that the submission of these comparables is not intended to be an appraisal or an estimate of value, and should not be construed as such. The memorandum further states that the information provided was collected from various sources, and was assumed to be factual, accurate, and reliable; but that the information had not been verified, and that the board of review did not warrant its accuracy.

The comparables are described as three or four-story, masonry, apartment buildings. Additionally, the comparables are from 51 to 110 years old and have from 8,848 to 12,000 square feet of building area. The comparables sold between August 2004 and August 2007 for \$830,000 to \$1,800,000, or \$73,611 to \$170,000 per unit. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has met this burden.

The Board finds that all of the comparables submitted by the appellant were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$5.47 to \$6.85 per square foot of building area. The subject's improvement

assessment of \$10.15 per square foot of building area is above the range established by the most similar comparables. Therefore, after considering adjustments and differences in the appellant's comparables when compared to the subject, the Board finds that the subject's improvement assessment is not equitable, and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
