

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Victor Johnson
DOCKET NO.: 08-02118.001-R-1
PARCEL NO.: 18-18-301-008

The parties of record before the Property Tax Appeal Board are Victor Johnson, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 770
IMPR.: \$ 9,860
TOTAL: \$ 10,630

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 912 square feet of living area. The dwelling was built in 1940. Features include a basement and central air conditioning.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the claim the appellant submitted information on three comparable properties. One is located in an area with the same neighborhood code as the subject, and the appellant did not indicate the proximity of the other two to the subject. The appellant's comparables consist of one-story or one and one-half story frame dwellings. They were built from 1900 to 1957. They contain 816 to 918 square feet of living area. All have basements, and two have garages. The comparables sold from September 2007 to June 2008 for \$12,500 or \$17,000 or \$14.74 to \$20.83 per square foot of living area including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$10,630 was disclosed. The subject's assessment reflects an estimated market

value of \$32,086 or \$35.18 per square foot of living area including land using Peoria County's 2008 three-year median level of assessments of 33.13%.

In support of the subject's assessment the board of review presented descriptions and sale price information on four comparable properties. Three are located in an area with the same neighborhood code as the subject, and the other is approximately three-fourths of a mile from the subject. They consist of one-story frame dwellings that were built from 1938 to 1957. The dwellings have 720 to 1,020 square feet of living area. All have garages, three have basements, and one has central air conditioning. The board of review's comparables sold from June 2007 to February 2008 for \$28,000 to \$35,500 or \$34.80 to \$38.89 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant highlighted differences between the subject and the board of review's comparables. The appellant provided MLS sheets for the board of review's sales comparables indicating that comparables #2 and #4 spent zero days on the market, and the appellant argued the sales were therefore not "arm's length." The appellant also argued that it is unfair to compare owner-occupied homes with rental properties such as the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant argued the subject is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2nd Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not met this burden.

The record contains seven suggested comparable sales for the Board's consideration. The appellant's comparables #2 and #3 are located in areas with different neighborhood codes than the subject, and the latter also is much older than the subject. The board of review's comparables #2 and #4 were not exposed to the market before sale, and their sale prices may not reflect market value. The remaining three comparables are similar in size, age and location to the subject. They sold for \$12,500 to \$35,500 or \$14.74 to \$36.46 per square foot of living area including land. The subject's estimated market value of \$32,086 or \$35.18 per square foot of living area including land is within that range even though the subject has central air conditioning that the three comparables lack. After considering the evidence the Board finds the appellant has not proven by a preponderance of the evidence that the subject is overvalued and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
