

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Trev Hoover  
DOCKET NO.: 08-02209.001-R-1  
PARCEL NO.: 14-33-110-002

The parties of record before the Property Tax Appeal Board are Trev Hoover, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 2,880  
IMPR.:    \$ 18,180  
TOTAL:    \$ 21,060**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half story dwelling of frame construction containing 1,826 square feet of living area. The dwelling was built in 1929. Features include a basement and a garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the claim the appellant submitted information on three comparable properties. They are located in areas with different neighborhood codes than the subject, and the appellant did not indicate their proximity to the subject. The appellant's comparables consist of one and one-half story or two-story frame dwellings. They were built from 1910 to 1924. They contain 1,172 to 1,602 square feet of living area. All have basements, and two have garages. The comparables sold from February to September 2007 for \$18,600 to \$21,000 or \$12.48 to \$15.91 per square foot of living area including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$21,060 was disclosed. The subject's assessment reflects an estimated market

value of \$63,568 or \$34.81 per square foot of living area including land using Peoria County's 2008 three-year median level of assessments of 33.13%.

In support of the subject's assessment the board of review presented descriptions and sale price information on five comparable properties. They are located 0.11 mile to 1.337 miles from the subject. They consist of one and one-half story frame dwellings that were built from 1911 to 1930. The dwellings have 1,256 to 1,560 square feet of living area. All have basements, three have central air conditioning, four have garages, and two have fireplaces. The board of review's comparables sold from March 2007 to August 2008 for \$68,000 to \$87,900 or \$44.42 to \$58.13 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant highlighted differences between the subject and the board of review's comparables. The appellant indicated the board of review's comparable #5 is more than a mile from the subject in a different section of town. Finally, the appellant argued that it is unfair to compare owner-occupied homes with rental properties such as the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant argued the subject is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2<sup>nd</sup> Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not met this burden.

The record contains eight suggested comparable sales for the Board's consideration. The appellant's comparables are of unknown proximity to the subject. Also, the appellant's comparable #1 is much smaller than the subject, and the appellant's comparables #2 and #3 are of a different design than the subject. The board of review's comparable #4 is much smaller than the subject, and the board of review's comparable #5 is located more than a mile from the subject in another area of the city. The remaining three comparables are similar to the subject in location, size, design and most other property characteristics. They sold for \$73,000 to \$87,900 or \$53.52 to \$58.13 per square foot of living area including land. The subject's estimated market value of \$63,568 or \$34.81 per square foot of living area including land is much lower than that range. After considering the evidence the Board finds the appellant has not proven by a preponderance of the evidence that the subject is overvalued and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
