

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kent Jones  
DOCKET NO.: 08-02225.001-R-1  
PARCEL NO.: 14-35-157-009

The parties of record before the Property Tax Appeal Board are Kent Jones, the appellant; and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$1,460  
IMPR.: \$8,600  
TOTAL: \$10,060**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a one-story frame dwelling with a finished attic containing 1,067 square feet of living area that was built in 1925 with a full, unfinished basement. Features include central air-conditioning and a 308 square foot detached garage.<sup>1</sup>

The appellant appeared before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this claim, the appellant submitted three comparable sales, Multiple Listing sheets and property record cards. One comparable is located in different assessment neighborhood code than the subject, as defined by the local assessor. The appellant testified that all of the comparables are in close proximity to the subject, however, the comparables' proximate locations in relation to the subject were not disclosed. The comparables consist of one-story or two-story frame exterior dwellings that were built from 1916 to 1930 and range in size

from 540 to 980 square feet of living area. One comparable has an unfinished basement. Two comparables have a detached garage. The comparables sold from March to April 2007 for prices ranging from \$10,000 to \$25,500 or from \$18.52 to \$26.34 square of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$10,060 was disclosed. The subject's assessment reflects an estimated market value of approximately \$30,365 or \$28.46 per square foot of living area including land using Peoria County's 2008 three-year median level of assessments of 33.13%.

In support of the subject's assessment, the board of review submitted property record cards and a market grid analysis of five comparable sales. The comparables are located in the subject's assessment neighborhood code, as defined by the local assessor. They are located from 0.051-mile to 0.484-mile from the subject. The comparables consist of one-story or one and one-half-story frame dwellings that were built from 1920 to 1935 and contain from 946 to 1,216 square feet of living area. Each comparable has a full unfinished basement. Two comparables have central air conditioning; and three have a garage. The comparables sold from April 2007 to August 2008 for prices ranging from \$23,500 to \$39,500 or from \$22.96 to \$34.17 per square of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted Multiple Listing Sheets for the comparable sales submitted by the board of review. The appellant argued it is unfair to compare owner occupied dwellings to a rental dwelling, but failed to identify which comparables are owner occupied or rental dwellings.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant argued the subject property is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2<sup>nd</sup> Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not met this burden.

The record contains eight suggested comparable sales for the Board's consideration. The Board gave less weight in its analysis to comparables #1 and #3 submitted by the appellant. These comparables were dissimilar to the subject in design, size, basement area, central air-conditioning, garage area and/or location when compared to the subject. The Board also gave less weight to comparables #1, #3 and #4 submitted by the board of

review. These comparables were dissimilar to the subject in age and/or lacked a garage, which the subject enjoys. The Property Tax Appeal Board finds the remaining three comparables submitted by the parties are more similar to the subject in age, size, design, and features. They sold for prices ranging from \$25,500 to \$39,500 or from \$26.34 to \$34.17 per square of living area, including land. The subject's assessment reflects an estimated market value of approximately \$30,365 or \$28.46 per square foot of living area including land, which falls within the range established by the most similar comparable sales contained in this record on a per square foot basis. After considering adjustments to the comparables for any differences when compared to the subject, the Property Tax Appeal Board finds the subject's estimated market value as reflected by its assessment is supported and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
