

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roger Heim
DOCKET NO.: 08-03039.001-R-1
PARCEL NO.: 18-03-205-007

The parties of record before the Property Tax Appeal Board are Roger Heim, the appellant; and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$1,580
IMPR: \$10,510
TOTAL: \$12,090**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a one-story aluminum or vinyl exterior dwelling with a finished attic area. The subject contains 1,267 square feet of living area and was built in 1900 with a full, unfinished basement and a detached garage.

The appellant appeared before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal.¹ In support of this claim, the appellant submitted three comparable sales; multiple listing sheets and property record cards. One comparable is located in the same assessment neighborhood code as the subject, as defined by the local assessor. The proximity of location to the subject for each comparable was not disclosed. The comparables consist of one-story or one and one-half-story aluminum or vinyl or wood siding exterior dwellings that were built from 1919 to 1930; and contained from 946 to 2,281 square feet of living area. The comparables have full or partial unfinished basements and one has air-conditioning. The

comparables sold from January to September 2007 for prices ranging from \$17,000 to \$23,500 or from \$7.45 to \$24.84 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$12,090 was disclosed. The subject's assessment reflects an estimated market value of approximately \$36,493 or \$28.81 per square foot of living area including land using Peoria County's 2008 three-year median level of assessments of 33.13%.

In support of the subject's assessment, the board of review submitted property record cards, a map and a market grid analysis of three comparable sales. Two comparables are located in the subject's assessment neighborhood code, as defined by the local assessor. The comparables were located from 0.07-mile to 0.92-mile from the subject. The comparables consist of one-story aluminum or vinyl or frame exterior dwellings that were built from 1900 to 1921 and contain from 892 to 1,287 square feet of living area. One comparable has air-conditioning. The comparables have a full or partial unfinished basement. The comparables sold from May to September 2007 for prices ranging from \$38,900 to \$52,000 or from \$34.89 to \$43.61 per square of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted multiple listing sheets for the comparable sales submitted by the board of review. The appellant argued that the board of review's comparable #2 sold in March 2007 for \$24,500. The appellant also argued that the board of review's comparables were superior to the subject and that it is unfair to compare owner occupied dwellings to a rental dwelling.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant argued the subject property is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2nd Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not met this burden.

The Board finds the record contains six suggested comparable sales for the Board's consideration. The Board gave less weight in its analysis to the comparables submitted by the appellant. These comparables were dissimilar to the subject in location, style, design and/or size when compared to the subject. The Board also gave less weight in its analysis to the board of review's comparables #2 and #3 because they were dissimilar to

the subject in location and/or size. The Property Tax Appeal Board finds the board of review's comparable #1 was the most similar comparable to the subject in location, size, design, and most features. This property sold for \$52,000 or \$42.83 per square foot of living area, including land. The subject's assessment reflects an estimated market value of approximately \$36,493 or \$28.81 per square foot of living area including land, which is well below the most similar comparable contained in this record on a per square foot basis. After considering adjustments to the comparables for any differences when compared to the subject, the Property Tax Appeal Board finds the subject's estimated market value as reflected by its assessment is supported by a preponderance of the evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
