

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rubolino Lynn
DOCKET NO.: 08-05834.001-R-1
PARCEL NO.: 07-08-312-001

The parties of record before the Property Tax Appeal Board are Rubolino Lynn, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,559
IMPR.: \$ 92,046
TOTAL: \$ 108,605

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a two-story frame dwelling containing 2,346 square feet of living area that was built in 1992. Features include a full unfinished basement, central air conditioning, a fireplace and a 420 square foot attached garage. The property is located in Warren Township, Lake County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process. In support of this claim, the appellant submitted information on three comparable properties described as two-story frame dwellings that were built in 1992. The comparables are located from two to six blocks from the subject property. The comparable dwellings have 2,289 or 2,346 square feet of living area. Features include unfinished basements, a fireplace and a 420 square foot attached garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$86,642 to \$87,779 or from \$37.20 to \$37.85 per square foot of living area. The subject's improvement assessment is \$92,046 or \$39.24 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$87,952 or \$37.49 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$108,605 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three comparable properties. They consist of two-story frame dwellings that were built in 1991 or 1992. The comparables are located on the same street as the subject property and have 2,346 square feet of living area. Features include unfinished or finished basements, central air conditioning and a 420 square foot garage. One comparable has a fireplace. These properties have improvement assessments ranging from \$91,038 to \$96,785 or from \$38.81 to \$41.26 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of six equity comparables. The Board gave less weight to the board of review's comparable #3 due to its finished basement when compared to the subject's unfinished basement. The Board finds the remaining five comparables are most similar to the subject in location, age, size, design, features and exterior construction. These comparables have improvement assessments ranging from \$86,642 to \$92,138 or from \$37.20 to \$39.27 per square foot of living area. The subject's improvement assessment of \$92,046 or \$39.24 per square foot of living area falls within the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
