

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Varney  
DOCKET NO.: 08-20066.001-R-1  
PARCEL NO.: 14-19-217-024-0000

The parties of record before the Property Tax Appeal Board are Joseph Varney, the appellant, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,474  
**IMPR.:** \$54,768  
**TOTAL:** \$67,242

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 2-story class 2-11 multi-family dwelling of frame construction containing 2,608 square feet of living area. The dwelling is 108 years old. Features of the home include a full unfinished basement, central air conditioning and a 2-car garage<sup>1</sup>.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story class 2-11 multi-family frame or frame and masonry dwellings that range in age from 106 to 118 years old. The comparable dwellings range in size from 2,642 to 2,926 square feet of living area. All comparables feature full basements, two of which are finished. Three have 2-car garages. The comparables have improvement assessments ranging from \$14.39 to \$16.96 per square foot of living area. The subject's improvement assessment is \$21.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

---

<sup>1</sup> The appellant states in the grid analysis and in Section III of the appeal form that the building has central air conditioning.

The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story class 2-11 multi-family frame dwellings that range in age from 105 to 116 years old. The dwellings range in size from 2,288 to 2,472 square feet of living area. All comparables feature full or partial basements, two of which are finished. All have 2-car garages. Two comparables have central air conditioning. These properties have improvement assessments ranging from \$20.97 to \$21.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #1 and #3 submitted by the appellant featured finished basements, and comparable #1 was frame and masonry construction. All four of the appellant's comparables lacked central air conditioning. Comparables #1 and #4 submitted by the board of review featured finished basements and lacked central air conditioning. The Board finds comparables #2 and #3 submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$21.07 and \$21.63 per square foot of living area. The subject's improvement assessment of \$21.00 per square foot of living area is below these two most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
