

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Lopez
DOCKET NO.: 08-20204.001-R-1
PARCEL NO.: 16-31-422-041-0000

The parties of record before the Property Tax Appeal Board are Richard Lopez, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,667
IMPR.: \$ 18,876
TOTAL: \$ 24,543

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,117 square feet of living area. The dwelling is 53 years old. Features of the home include a full, finished basement and central air conditioning.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one or one and one-half story masonry dwellings that range in age from 52 to 57 years old. The comparable dwellings range in size from 1,113 to 1,379 square feet of living area. Two comparables have a partial basement, and two have central air conditioning. The comparables have improvement assessments ranging from \$11.05 to \$12.71 per square foot of living area. The subject's improvement assessment is \$16.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one-story masonry dwellings that are either 54 or 56 years old. The

dwellings range in size from 1,029 to 1,134 square feet of living area. Two comparables have full, finished basements, and one has a full, unfinished basement. Each comparable has a garage, and one has central air conditioning. These properties have improvement assessments ranging from \$16.90 to \$19.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that the eight comparables submitted by both parties were all very similar to the subject in age, size, and exterior construction. These comparables had improvement assessments that ranged from \$11.05 to \$19.21 per square foot of living area. The subject's improvement assessment of \$16.90 per square foot of living area falls within the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
