

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Harvalas Property Management
DOCKET NO.: 08-20403.001-R-1
PARCEL NO.: 14-19-204-016-0000

The parties of record before the Property Tax Appeal Board are Harvalas Property Management, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$14,208
IMPR.: \$60,909
TOTAL: \$75,117**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story multi-family dwelling of masonry construction containing 2,868 square feet of living area. The dwelling is 81 years old. Features of the home include a full, unfinished basement, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2-story frame multi-family dwellings that range in age from 104 to 109 years old. The comparable dwellings range in size from 3,660¹ to 4,298 square feet of living area. Two comparables feature full basements, one of which is finished, and one is on a slab foundation. One comparable has a fireplace and two have 2 or 2½-car garages. The comparables have improvement assessments ranging from \$14.14 to \$14.81 per square foot of living area. The subject's improvement assessment is \$21.24 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The appellant incorrectly lists the size of the lot as the size of the improvement on the analysis grid.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry multi-family dwellings ranging in age from 93 to 116 years old. The dwellings range in size from 2,384 to 2,822 square feet of living area. All comparables feature full basements, one of which is finished. All have 2-car garages. One comparable has a fireplace and one has central air conditioning. These properties have improvement assessments ranging from \$21.48 to \$29.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The three comparables submitted by the appellant were much larger than the subject and frame construction rather than masonry. Therefore, these three comparables received less weight in the Board's analysis. Although all four comparables submitted by the board of review closely matched the subject in style, exterior construction and features, the Board finds comparables #1 and #2 were most similar to the subject in size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$21.48 and \$22.29 per square foot of living area. The subject's improvement assessment of \$21.24 per square foot of living area is below these two most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The Board acknowledges that the appellant submitted income information about the subject, but did not submit income data on any comparables or other market derived data to support a reduction in this matter.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
