

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Sheehy
DOCKET NO.: 08-20454.001-R-1
PARCEL NO.: 11-31-201-005-0000

The parties of record before the Property Tax Appeal Board are Michael Sheehy, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,193
IMPR.: \$ 26,036
TOTAL: \$ 34,229

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,619 square foot parcel of land improved with a 103 year old, two-story, frame and masonry, multifamily dwelling that contains 2,550 square feet of living area, two apartments, two baths, and a full unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of this argument, the appellant, via counsel, submitted data and descriptions on a total of four properties suggested as comparable to the subject and located within one mile from the subject. The properties are described as two-story, masonry, or frame and masonry, multifamily dwellings. Features include: two or three apartments; two to three and one half baths; and a full unfinished basement. The properties range: in age from 56 to 95 years; in size from 3,115 to 5,275 square feet of building area; and in improvement assessment from \$8.16 to \$9.39 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$26,036 or \$10.21 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information regarding four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, frame and masonry, multifamily dwellings. Features include two apartments; two to two and one half baths; and basement area for three properties. These properties range in age from 92 to 103 years and range in size from 2,031 to 2,818 square feet of living area. Their improvement assessments range from \$12.52 to \$16.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant argued assessment inequity as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds the appellant has not demonstrated unequal treatment by clear and convincing evidence.

The parties presented a total of eight suggested comparable properties. The PTAB finds the board of review's comparables are the most similar to the subject in size, amenities, and age. The properties are described as two-story, frame and masonry, multifamily dwellings. Features include two apartments; two to two and one half baths; and basement area for three properties. These properties range in age from 92 to 103 years and range in size from 2,031 to 2,818 square feet of living area. Their improvement assessments range from \$12.52 to \$16.59 per square foot of living area. The subject's assessment of \$10.21 per square foot of living area is below the range of the most similar comparables.

Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
