

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Raymond Rovello
DOCKET NO.: 08-20507.001-R-1
PARCEL NO.: 19-14-301-062-0000

The parties of record before the Property Tax Appeal Board are Raymond Rovello, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,261
IMPR.: \$ 28,007
TOTAL: \$ 32,268

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story, multi-family building of masonry construction. The building is 54 years old and contains 1,634 square feet of living area with two apartment units, a full unfinished basement, and a two-car garage. The subject is classified as a class 2-11 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Chicago, Lake Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story, multi-family buildings of masonry or frame construction. The comparable properties all have the same neighborhood code as the subject. The comparable buildings range in age from 51 to 99 years and contain from 1,722 to 2,049 square feet of living area. Two buildings have two apartment units; however, the number of apartment units in the other two comparables was not disclosed. Each comparable has a garage, and one comparable has a fireplace. Information on the comparables' foundations was not provided. The comparables have improvement assessments ranging from \$27,973 to \$33,265 or \$15.92 to \$17.05 per square foot of living area. The subject's improvement assessment is \$28,007 or \$17.14 per square foot of living area. Based on this evidence, the

appellant requested that the subject's improvement assessment be reduced to \$26,724 or \$16.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$32,268 was disclosed. The board of review presented descriptions and assessment information on four comparable properties described as two-story, multi-family buildings of masonry construction. The comparable properties all have the same neighborhood and classification codes as the subject. The comparable buildings range in age from 51 to 54 years and contain from 1,566 to 1,671 square feet of living area. Each comparable has two apartment units, a garage, and a full basement, three of which are finished. These properties have improvement assessments ranging from \$27,014 to \$31,276 or \$17.25 to \$19.07 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant did not provide any information on the comparables' foundations. In addition, the appellant's comparables #1 and #2 were much larger in size than the subject, and comparables #3 and #4 were much older. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in size and were very similar in age and exterior construction. Moreover, each of the board of review comparables had two apartment units and a full basement like the subject. Due to their similarities to the subject, the board of review comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$27,014 to \$31,276 or \$17.25 to \$19.07 per square foot of living area. The subject's improvement assessment of \$28,007 or \$17.14 per square foot of living area falls below the range established by the most similar comparables on a per square foot basis. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
