

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joe Skala
DOCKET NO.: 08-20872.001-R-1
PARCEL NO.: 14-30-119-009-0000

The parties of record before the Property Tax Appeal Board are Joe Skala, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,865
IMPR.: \$ 41,243
TOTAL: \$ 52,108

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,750 square foot parcel improved with a 129-year-old, two-story, multi-family dwelling of frame construction containing 2,764 square feet of living area and located in Lake View Township, Cook County. Features of the building include four full bathrooms and a one and one-half car detached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the equity argument, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of multi-story, multi-family dwellings of frame or frame and masonry construction located within five blocks of the subject. The improvements range in size from 3,279 to 4,554 square feet of living area and range in age from 103 to 116 years old. The comparables contain from two to four and one-half bathrooms. Two comparables have a full-finished basement and two comparable have a two-car detached

garage. The improvement assessments range from \$6.93 to \$10.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in age and location. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$52,108. The subject's improvement assessment is \$41,243 or \$14.92 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The four suggested comparables are improved with two-story, multi-family dwellings of frame construction located within one-quarter mile of the subject. The improvements range in size from 2,044 to 2,992 square feet of living area and in age from 108 to 113 years old. The comparables contain two or three full bathrooms, a full-finished or unfinished basement and a multi-car garage. The improvement assessments range from \$14.75 to \$19.08 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable two and the board of review's comparables one and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, age and location and have improvement assessments ranging from \$10.31 to \$17.41 per square foot of living area. The subject's per square foot improvement assessment of \$14.92 falls within the range established by these properties. The Board finds the four remaining comparables less similar to the subject in size and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
