

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Morton Balaban
DOCKET NO.: 08-20874.001-R-1
PARCEL NO.: 14-20-110-007-0000

The parties of record before the Property Tax Appeal Board are Morton Balaban, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,248
IMPR.: \$ 75,726
TOTAL: \$ 92,974

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,975 square foot parcel improved with a 22-year-old, three-story, multi-family dwelling of masonry construction containing 4,808 square feet of living area and located in Lake View Township, Cook County. Features of the building include four full bathrooms, a partial-unfinished basement, central air-conditioning and a two-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this argument, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of three-story, multi-family dwellings of masonry construction located within seven blocks of the subject. The improvements range in size from 4,253 to 4,780 square feet of living area and range in age from 88 to 111 years old. The comparables contain three, three and one-half or four full bathrooms and a two-car detached garage. No garage descriptions

were provided. The improvement assessments range from \$12.74 to \$15.14 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in improvement size, design and location. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$92,974. The subject's improvement assessment is \$75,726 or \$15.75 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The four suggested comparables are improved with three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,842 to 5,242 square feet of living area and range in age from 14 to 21 years old. The comparables contain from four and one-half to seven full bathrooms and a full-finished or unfinished basement. Two comparables have central air-conditioning and one comparable has multiple fireplaces. The improvement assessments range from \$16.11 to \$21.25 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables two, three and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, age and location and have improvement assessments ranging from \$16.11 to \$17.57 per square foot of living area. The subject's per square foot improvement assessment of \$15.75 falls below the range established by these properties. The Board finds the four remaining comparables less similar to the subject in size and/or age and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board

finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
