

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lakeside Bank
DOCKET NO.: 08-20891.003-C-2
PARCEL NO.: 14-30-225-034-0000

The parties of record before the Property Tax Appeal Board are Lakeside Bank, the appellant(s), by attorney Katherine A. O'Dell, of Amari & Locallo in Chicago; and the Cook County Board of Review by Cook County Assistant State's Attorney John Coyne.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$76,237
IMPR.: \$371,910
TOTAL: \$448,147

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,025 square foot parcel of land improved with a one-year old, two-story, masonry, commercial bank building containing 10,626 square feet of building area. The appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions on a total of nine properties suggested as comparable to the subject and located within the subject's neighborhood code or township. The data in its entirety reflects that the properties are improved with one to three-story, masonry, commercial bank buildings. The properties range: in age from one to 98 years; in size from 3,704 to 31,320 square feet of building area; and in improvement assessments from \$17.06 to \$53.41 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$614,955, or \$57.87 per square foot of building area was disclosed. The board also submitted copies of the property characteristic printouts for the subject as well as raw sales data on seven properties. The sales occurred between May 1999 and July 2008 for prices ranging from \$1,350,000 to \$3,950,000 or from \$140.22 to \$776.18 per square foot of building area. In addition, the board noted the sale of the subject in February 2004 for \$2,700,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued that the board of review did not refute the appellant's equity argument. She also argued that the board of review's sale comparable #4 is located outside Cook County while sale #5 is a demolished building.

The board of review's attorney argued that assessment is driven by the fair market value and that commercial buildings have differing values based on location and amenities.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule* 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The appellant presented assessment data on a total of nine equity comparables. The PTAB finds comparables #1, #2 and #7 most similar to the subject. The properties are improved with one or two-story, masonry, commercial bank buildings. The properties range: in age from one to four years; in size from 9,058 to 13,194 square feet of building area; and in improvement assessments from \$31.95 to \$53.41 per square foot of building area. In comparison, the subject's improvement assessment of \$57.87 per square foot of building area is above the range of comparables. The PTAB gives little weight to the board of review's evidence as the data is merely raw sales data without any assessment information.

After considering adjustments and the differences in the comparables when compared to the subject, the PTAB finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
