

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: M. Anderson
DOCKET NO.: 08-21076.001-R-1
PARCEL NO.: 09-35-229-011-0000

The parties of record before the Property Tax Appeal Board are M. Anderson, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$24,522
IMPR: \$107,420
TOTAL: \$131,942**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 4,913 square feet of living area. The dwelling is 18 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a 3-car garage¹.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story and three-story masonry dwellings that range in age from 1 to 38 years old. The comparable dwellings range in size from 3,761 to 5,936 square feet of living area. Two comparables have full finished basements, one comparable an unfinished basement and one comparable does not have a basement. Each comparable has central air conditioning and a fireplace. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$10.14 to \$18.14 per square foot of living area. The subject's improvement assessment is \$21.86 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ Appellant indicated the subject property has a partial finished basement, however, the property record card indicates the basement as partial unfinished.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 11 to 36 years old. The dwellings range in size from 3,960 to 4,234 square feet of living area. Three comparables have full unfinished basements and one comparable has a partial basement finished with a recreation room. Each comparable has central air conditioning. Three comparables have a fireplace and one comparable has two fireplaces. Three comparables have 2-car garages and one comparable has a 3-car garage. These properties have improvement assessments ranging from \$21.75 to \$22.92 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparable #3 submitted by the appellant and comparables #1, #2 and #4 submitted by the board of review were most similar to the subject in size, design, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.45 to \$22.92 per square foot of living area. The subject's improvement assessment of \$21.86 per square foot of living area is supported by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
