

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: CRP Holdings c/i Colliers B&K REMS
DOCKET NO.: 08-21354.001-I-1
PARCEL NO.: 08-22-102-224-0000

The parties of record before the Property Tax Appeal Board are CRP Holdings c/i Colliers B&K REMS, the appellant(s), by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 49,916
IMPR.: \$ 234,700
TOTAL: \$ 284,616

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 32,625 square foot parcel of land improved with a 34-year old, one-story, industrial building containing 15,000 square feet of building area. The appellant argued that the market value of the subject property was not accurately reflected in its assessed value as the basis of this appeal.

In support of the market value argument, the appellant submitted a summary appraisal report of the subject property with an effective date of January 1, 2008. The appraiser estimated a market value for the subject of \$540,000 based upon the three traditional approaches to value. The appraisal indicated the subject was inspected. The appraisers addressed the sale of the

subject in October 2006 for \$1,100,000 and indicate this sale was an allocated price from a portfolio sale of 13 properties. Based upon this evidence, the appellant requests a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$284,616 was disclosed. This assessment reflects a fair market value of \$790,600 when the Cook County Real Property Assessment Classification Ordinance level of assessments of 36% for Class 5b property is applied.

In support of the subject's assessment, the board's analysis stated that the subject was purchased by the appellant in October 2006 for a price of \$1,100,000 or \$73.33 per square foot of building area. In support of this sale, the board of review submitted copies of the deed and the PTAX-20, Illinois Real Estate Transfer Declaration.

In addition, the board of review presented descriptions and sales information on a total of seven properties. The properties are one-story, industrial buildings that range in size from 14,100 to 15,190 square feet of living area. They sold for prices ranging from \$790,000 to \$1,193,000 or from \$52.01 to \$84.40 per square foot of building area, land included.

At hearing, the appellant's attorney argued that the sale of the subject in 2006 is not reflective of the subject's market value as the sale was part of a portfolio sale as listed in the appraisal. He argued that the appraisal is the best evidence of the subject's market value.

The board of review's representative, Lena Henderson, stated that while the appraisal indicates the sale in 2006 was a bulk sale, she argued that appraisal does not indicate the price is not at market. She also argued that the board of review's comparables support the assessment.

In rebuttal, the appellant's attorney argued that the sales evidence shows that the subject was not advertised for sale on the open market and that the property was 100% leased at the time of sale. The Property Tax Appeal Board requested the submission of *Group Hearing Exhibit #3*, copies of the sales documents for the two other properties purchased by the appellant on the same date, at the same time, and by the same seller as the subject property was purchased.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c).

In determining the fair market value of the subject property, the Board thoroughly considered the parties' evidence. The Board gives diminished weight to the appraisal because it lacks the appraisers' testimony as to further explain the bulk nature of the subject's sale. The appraisal includes a statement that the sale of the subject in October 2006 was part of a 13 property portfolio sale, but there is no testimony as to these sales and how the subject's independent sales contract is part of a bulk sale. For these reasons, the Board finds the appraisal hearsay and gives the adjustments and the conclusion of value within the appraisal no weight.

The courts have stated that where there is credible evidence of comparable sales, these sales are to be given significant weight as evidence of market value. Chrysler Corp. v. Illinois Property Tax Appeal Board, 69 Ill.App.3d 207 (2nd Dist. 1979); Willow Hill Grain, Inc. v. Property Tax Appeal Board, 187 Ill.App.3d 9 (5th Dist. 1989). Therefore, the Board will consider the raw sales data from both parties along with the subject's sale information.

The parties submitted 14 sales comparables along with the subject's 2006 sale information. The Board finds the board of review's sale comparables #2 through #6 similar to the subject in size and most probative in determining the subject's market value as of the lien date. These sales occurred from January 2007 and August 2008 for prices ranging from \$1,080,000 to \$1,190,739 or from \$72.00 to \$84.40 per square foot of building area. The subject sold in 2006 for \$73.33 per square foot of building area. In comparison, the appellant's assessment reflects a market value of \$52.71 per square foot of building area which is below the range established by the sales

comparables and lower than the sale price. After considering adjustments and the differences in the comparables when compared to the subject, the Board finds the subject's per square foot assessment is supported and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
