

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Aniela Granat  
DOCKET NO.: 08-21363.001-R-1  
PARCEL NO.: 19-09-307-012-0000

The parties of record before the Property Tax Appeal Board are Aniela Granat, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$4,649  
IMPR.: \$20,486  
TOTAL: \$25,135**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of frame construction containing 1,876 square feet of living area. The dwelling is 90 years old and is located in Lake Township, Cook County. Features include a full basement finished with a recreational room and a two-car garage

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process. In support of this argument, the appellant submitted information on three comparable properties. The comparables consist of one-story masonry dwellings that range in age from 49 to 89 years old. The comparables are located within ten blocks of the subject property. The dwellings range in size from 1,848 to 2,023 square feet of living area. Two of the comparables have a garage or carport. No information as to the type of foundations was supplied. The comparables have improvement assessments ranging from \$16,493 to \$18,188 or from \$8.15 to \$9.12 per square foot of living area. The subject property has an improvement assessment of \$20,486 or \$10.92 per square foot of living area. Based on this evidence, the appellant requested that the

subject's improvement assessment be reduced to \$16,509 or \$8.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$25,135 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three comparable properties. They consist of one and one-half story frame or masonry dwellings that range in age from 3 to 88 years old. The comparables have the same assigned neighborhood code as the subject property. The dwellings range in size from 1,808 to 2,032 square feet of living area. The comparables have full or partial basements finished as recreational rooms and from one and one-half to two and one-half car garages. One has central air conditioning. The comparables have improvement assessments ranging from \$21,132 to \$29,624 or from \$11.69 to \$14.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of six suggested comparable properties for the Board's consideration. The Board gave less weight to the board of review's comparable #2 due to its age. The Board finds the remaining five comparables are more similar to the subject in location, age, size, and features. These most similar comparables have improvement assessments ranging from \$16,493 to \$23,459 or from \$8.15 to \$12.30 per square foot of living area. The subject's improvement assessment of \$20,486 or \$10.92 per square foot of living area falls within the range established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
