

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Krenzer
DOCKET NO.: 08-21620.001-R-1
PARCEL NO.: 16-07-204-011-0000

The parties of record before the Property Tax Appeal Board are John Krenzer, the appellant, by attorney Joel R. Monarch in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$15,204
IMPR.: \$52,348
TOTAL: \$67,552**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 2,377 square feet of living area. The dwelling is 109 years old. Features of the home include a full unfinished basement and a two-car detached garage. The property has an 11,180 square foot site and is located in Oak Park Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of frame or stucco construction that ranged in size from 2,140 to 2,178 square feet of living area. Two of the comparables are 105 years old and the third comparable is 120 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include full unfinished basements. One comparable has central air conditioning and two comparables have fireplaces. Garages are either 1 or 2-car detached garages. The comparables have improvement assessments ranging from \$46,544 to \$48,532 or from \$21.37 to \$22.68 per square foot of living area. The subject's improvement assessment is \$58,324 or \$24.54 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$52,348 or \$22.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of frame construction that range in size from 2,202 to 2,520 square feet of living area. The dwellings range in age from 82 to 107 years old. Each has the same neighborhood code as the subject property. Features of the comparables include either a partial or a full basement and a fireplace. Three of the comparables have central air conditioning and three have a two-car garage. The fourth comparable has a 2.5-car garage. These properties have improvement assessments ranging from \$59,651 to \$65,707 or from \$26.07 to \$27.09 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables numbers 1 and 2 are the most similar to the subject in location, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$21.37 and \$22.68 per square foot of living area, respectively. The subject's improvement assessment of \$24.54 per square foot of living area is above the assessments of the best comparables in this record. The Board further finds that the comparables suggested by the board of review would require downward adjustments to their respective per square foot assessments. Two of the comparables are significantly newer than the subject property and all would require adjustments for a fireplace that the subject does not have. In addition, three of the comparables have central air conditioning that the subject does not have. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
