

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jo Wellman
DOCKET NO.: 08-21674.001-R-1
PARCEL NO.: 15-12-109-032-0000

The parties of record before the Property Tax Appeal Board are Jo Wellman, the appellant, by attorney Joel R. Monarch in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$27,336
IMPR: \$74,944
TOTAL: \$102,280**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3,573 square feet of living area. The dwelling is 101 years old. Features of the home include a full unfinished basement, two fireplaces and a 2.5-car garage. The property has a 20,100 square foot site and is located in River Forest, River Forest Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of masonry, frame, or stucco construction that ranged in size from 3,322 to 3,885 square feet of living area. The dwellings ranged in age from 81 to 115 years old. Each comparable has the same neighborhood code as the subject property with one located on the same street and block as the subject. Features of the comparables include a full basement and two or three-car garages. Two of the comparables have finished recreation rooms in the basement. One comparable has central air conditioning and two comparables have a fireplace. The comparables have improvement assessments ranging from \$61,312 to \$71,664 or from \$18.45 to \$19.36 per square foot of living area. The subject's improvement assessment is \$74,944 or \$20.98 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$67,007 or \$18.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of frame construction that range in size from 3,672 to 4,425 square feet of living area. The dwellings range in age from 100 to 133 years old. Each has the same neighborhood code as the subject property with one located on the subject's street. Features of the comparables include a full basement, central air conditioning, one or three fireplaces and two or three-car garages. One comparable has a finished recreation room in the basement. These properties have improvement assessments ranging from \$80,049 to \$100,936 or from \$21.79 to \$24.01 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of seven comparable properties for the Board's consideration. The Board gave diminished weight to board of review comparable 2 due primarily to its significantly larger size when compared to the subject property. Also receiving less weight in the Board's final analysis are appellant's comparable 3 and board of review comparables 1 and 3, due to age disparity when compared to the subject. The Board finds the appellant's comparables 1 and 2 and board of review comparable 4 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$18.46 to \$24.01 per square foot of living area. The subject's improvement assessment of \$20.98 per square foot of living area is within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
