

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nick Neubauer
DOCKET NO.: 08-21787.001-R-1
PARCEL NO.: 05-29-204-033-0000

The parties of record before the Property Tax Appeal Board are Nick Neubauer, the appellant, by attorney Howard W. Melton of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$88,612
IMPR: \$258,756
TOTAL: \$347,368

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 6,669 square feet of living area. The dwelling is 89 years old. Features of the home include a partial unfinished basement, four fireplaces and a 2.5-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as two-story frame or masonry dwellings that range in age from 13 to 91 years old. The comparable dwellings range in size from 5,274 to 8,403 square feet of living area. Four comparables have central air conditioning. Four comparables have two fireplaces and one comparable has one fireplace. Three comparables have a 3-car garage, one comparable has a 2.5-car garage and one comparable has a 4-car garage. The comparables have improvement assessments ranging from \$28.85 to \$36.68 per square foot of living area. The subject's improvement assessment is \$38.80 per square foot of living area. The appellant also submitted information on six comparable sales, however, these comparables do not have detailed descriptive information. The Board will give less weight to the comparables that do not have descriptive information. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 71 to 81 years old. The dwellings range in size from 6,082 to 7,052 square feet of living area. Three comparables have a partial unfinished basement and one comparable has a full unfinished basement. One comparable has central air conditioning. Two comparables have two fireplaces, one comparable has four fireplaces and one comparable has three fireplaces. Three comparables have a 3-car garage and one comparable has a 2-car garage. These properties have improvement assessments ranging from \$39.03 to \$42.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1, #2 and #4 submitted by the board of review were most similar to the subject in size, exterior construction, features and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$39.03 to \$39.82 per square foot of living area. The subject's improvement assessment of \$38.80 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
