

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Kashul
DOCKET NO.: 08-21827.001-R-1
PARCEL NO.: 09-27-218-076-0000

The parties of record before the Property Tax Appeal Board are William Kashul, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,400
IMPR.: \$73,848
TOTAL: \$88,248

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,215 square feet of living area. The dwelling is approximately 20 years old and features a full unfinished basement, central air conditioning, two fireplaces and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process. In support of this argument, the appellant submitted information on four comparable properties. The comparables consist of two-story masonry or frame and masonry dwellings that range in age from 7 to 30 years old. The comparables have the same assigned neighborhood code and are located within a half-mile of the subject property. The dwellings range in size from 2,866 to 3,636 square feet of living area. The comparables have full unfinished basements, central air conditioning, one fireplace and a garage. The comparables have improvement assessments ranging from \$49,992 to \$61,932 or \$16.75 to \$18.52 per square foot of living area. The subject property has an improvement assessment of \$73,848 or \$22.97 per square foot of living area. Based on this evidence, the appellant requested that the subject's

improvement assessment be reduced to \$57,870 or \$18.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$88,248 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four comparable properties. They consist of two-story masonry dwellings that range in age from 20 to 30 years old. The comparables have the same assigned neighborhood code and two comparables are located within a quarter-mile of the subject property. The dwellings range in size from 2,757 to 3,093 square feet of living area. The comparables have full or partial unfinished basements, central air conditioning, a fireplace and two or three-car garages. The comparables have improvement assessments ranging from \$70,012 to \$72,968 or from \$23.00 to \$26.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of eight suggested comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparables #2 and #3 due to dissimilar exterior construction. The Board finds the remaining six comparables are more similar to the subject in location, age, size, exterior construction and features. These most similar comparables have improvement assessments ranging from \$60,889 to \$72,968 or from \$16.75 to \$26.36 per square foot of living area. The subject's improvement assessment of \$22.97 per square foot of living area falls within the range established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
