

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Amy Booth
DOCKET NO.: 08-22301.001-R-1
PARCEL NO.: 05-32-117-026-0000

The parties of record before the Property Tax Appeal Board are Amy Booth, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,467
IMPR.: \$43,074
TOTAL: \$56,541

Subject only to the State multiplier as applicable.

ANALYSIS

The subject consists of an 8,417 square foot parcel of land improved with a multi-level single-family dwelling of masonry construction containing 1,942 square feet of living area. The dwelling is 48 years old. Features of the home include a partial finished basement, central air conditioning and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as multi-level masonry or frame and masonry single-family dwellings that range in age from 49 to 52 years old. Three of the properties are located within three blocks of the subject. The comparable dwellings range in size from 1,825 to 2,097 square feet of living area. Features include air conditioning, a two-car garage, a partial finished basement and a fireplace for three properties. The comparables have improvement assessments ranging from \$21.45 to \$22.70 per square foot of living area. The subject's improvement assessment is \$27.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$67,007 was disclosed. The subject's improvement assessment is \$53,540 or

\$27.57 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties consisting of multi-level single-family dwellings that range in age from 49 to 51 years old. Two of the properties are located within a quarter-mile of the subject. The dwellings range in size from 1,519 to 1,613 square feet of living area. Features include a partial finished basement, air conditioning, a two-car garage and a fireplace for three properties. These properties have improvement assessments ranging from \$27.61 to \$29.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the comparables submitted by the appellant were most similar to the subject in location, size, style, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.45 to \$22.70 per square foot of living area. The subject's improvement assessment of \$27.57 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
