

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul & Alicia Mang
DOCKET NO.: 08-22312.001-R-1
PARCEL NO.: 05-20-209-001-0000

The parties of record before the Property Tax Appeal Board are Paul & Alicia Mang, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 20,520
IMPR.: \$ 74,390
TOTAL: \$ 94,910**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject consists of a 8,550 square foot parcel of land improved with a one and half-story single family dwelling of frame and masonry construction containing 2,532 square feet of living area. The dwelling is 12 years old. Features of the home include a full finished basement, central air conditioning, two fireplaces and a two-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as one and half to two-story single family, frame and stucco dwellings that range in age from 89 to 121 years old. The comparable dwellings range in size from 2,419 to 2,791 square feet of living area. Features include partial or full unfinished basement, a fireplace and two-car garage for two properties and air conditioning for one property. The comparables have improvement assessments ranging from \$21.77 to \$26.41 per square foot of living area. The subject's improvement assessment is \$29.38 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$94,910 was disclosed. The subject's improvement assessment is \$74,390 or

\$29.38 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties consisting of one and half or two-story frame or frame and masonry single family dwellings that range in age from 54 to 109 years old. The dwellings range in size from 1,814 to 2,476 square feet of living area. Features include full a fireplace or two fireplaces, an unfinished or finished basement, from a one and half-car garage to a three-car garage and air conditioning for two properties. These properties have improvement assessments ranging from \$29.42 to \$37.64 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

The Board finds the comparables #1 and #2 submitted by the appellants and comparable #1 submitted by the board of review were most similar to the subject in location, size and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.77 to \$29.42 per square foot of living area. The subject's improvement assessment of \$29.38 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
