

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Giannini  
DOCKET NO.: 08-22455.001-R-1  
PARCEL NO.: 02-28-113-017-0000

The parties of record before the Property Tax Appeal Board are Michael Giannini, the appellant, by attorney Anthony M. Farace of Amari & Locallo in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 19,186  
**IMPR.:** \$ 80,173  
**TOTAL:** \$ 99,359

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 4,717 square feet of living area. The dwelling is 16 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a three-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties described as two-story frame, masonry, or frame and masonry dwellings that range in age from 12 to 18 years old. Six of the comparables have the same assigned classification code as the subject, and two are located in the same tax block as the subject. The comparable dwellings range in size from 3,250 to 4,772 square feet of living area. Two dwellings have finished basements, either full or partial, and five have unfinished basements, either full or partial. Each comparable has central air conditioning, one or two fireplaces, and a two or three-car attached garage. The comparables have improvement assessments ranging from \$14.37 to \$15.85 per square foot of living area. The subject has an improvement assessment of \$16.69 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from seven to fifteen years old. The comparables have the same assigned classification and neighborhood codes as the subject. Three comparables are located one-quarter mile from the subject. The dwellings range in size from 3,953 to 4,628 square feet of living area. Two comparables have full finished basements, and two have full unfinished basements. Each comparable has central air conditioning, one or two fireplaces, and a three-car attached garage. These properties have improvement assessments ranging from \$17.48 to \$18.09 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eleven equity comparables. The appellant's comparables two through six differed from the subject in exterior construction, and comparables two through four were also smaller than the subject. As a result, these comparables received reduced weight in the Board's analysis. The comparable numbered three by the board of review was smaller than the subject, and comparable four was newer. As a result, these comparables also received reduced weight. The Board finds the appellant's comparables numbered one and seven and the comparables numbered one and two by the board of review were very similar to the subject in exterior construction, size, style, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.23 to \$18.09 per square foot of living area. The subject's improvement assessment of \$16.69 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
