

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sally Weber
DOCKET NO.: 08-22502.001-R-1
PARCEL NO.: 05-20-116-014-0000

The parties of record before the Property Tax Appeal Board are Sally Weber, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,335
IMPR.: \$89,183
TOTAL: \$108,518

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,087 square feet of living area. The dwelling is 71 years old. Features include a partial unfinished basement, central air conditioning, a fireplace and a two-car attached garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process. In support of this argument, the appellant submitted information on four comparable properties. The comparables consist of two-story frame, masonry or frame and masonry dwellings that range in age from 66 to 80 years old. The comparables have the same assigned neighborhood code as the subject. The dwellings range in size from 2,835 to 3,240 square feet of living area. Comparables #1, #2 and #3 feature full or partial basements finished as recreational rooms and comparable #4 has a crawl-space foundation. Comparables #1, #2 and #4 have central air conditioning. The comparables have one or two fireplaces and one, one and one-half or two-car attached or detached garages. The comparables have improvement assessments ranging from \$56,923 to \$73,577 or from \$18.11 to \$22.91 per square foot of living area. The subject property has an improvement assessment of \$89,183 or \$28.89 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement

assessment be reduced to \$64,827 or \$21.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$108,518 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four comparable properties. They consist of two-story frame and masonry dwellings that range in age from 61 to 80 years old. The comparables have the same assigned neighborhood code and are located within one-quarter mile of the subject property. The dwellings range in size from 2,232 to 2,890 square feet of living area. Features include full basements either unfinished or finished as a recreational room. The comparables have one, two or three fireplaces and one or two-car garages. Comparable #1 and #2 have central air conditioning. The comparables have improvement assessments ranging from \$70,932 to \$93,015 or from \$29.06 to \$32.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of eight suggested comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparable #4 due to its crawl-space foundation and comparables #1 and #3 due to exterior construction and features. The Board finds the remaining five comparables are more similar to the subject in location, age, size, exterior construction and features. These most similar comparables have improvement assessments ranging from \$56,923 to \$93,015 or from \$20.08 to \$32.93 per square foot of living area. The subject's improvement assessment of \$89,183 or \$28.89 per square foot of living area falls within the range established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
